MEAL INFORMATION:

Due to the logistics of ordering food on the island, it is difficult for the chef to accommodate last-minute dietary needs (i.e. life-threatening allergies such as airborne peanut, seafood, etc...) upon the school's arrival. Please assist us by obtaining the information below. The Student Health Forms should be consulted for food allergies. Please collect these at an early date so that you will have the appropriate information. **The Assistant Program Director will call one week prior your departure for this information. We can offer no assurance after this time. *If a student's condition is relatively complex, please have a parent call/email us.***
